

SVB's SKILL DEVELOPMENT INSTITUTE.

“Anyone who does anything to help a child in his life is a hero.”

Certificate Course in Pre-school Teacher Training Course

PROSPECTUS

2023-2024

ABOUT SARASWATHI VIDYA BHAVAN

The Management of the college rests on Saraswathi Vidya Bhavan (SVB), a registered trust, which streamed into life on 14th April 1983, in an obscure area of Bhandup, in the Central suburbs of the Metropolis.

To achieve its core objective, the two vital tasks that the Education Group set before it were to make education more and more profession oriented so as to contribute to National progress and to have a permanent set up at the National level to be responsible for enhancement of the quality of education through extensive research aided by science and technology.

To professionalize education, SVB Trust first took over a Teacher's Training Institute from its Sister Trust, National Education Society at Bhandup (W), and started turning over quality teachers to establish its footsteps in teaching profession. Then SVB established Computer Centres with latest infrastructure to substantially give computer coverage not only to its students but also to the community around.

Saraswathi College of Education and Research, Dombivli (E) is the 4th of the professional ventures on quality education. SVB runs a series of schools, including an International school, and a College of Pharmacy which provides for B.Pharm, M.Pharm and Ph. D. programme in Pharmaceutical Sciences.

The SVB Trust is working towards setting up a self-financing University at Dawadi (Dombivli) covering MBA, MCA, Engineering, Nursing programmes etc. In Community Development, the Trust has also taken steps through its many ventures and it has acquired a land at Dawadi (Dombivli) for setting up Orphanage, Old age home, Community Centre.

FROM THE PRESIDENT'S DESK

Dr. R. Varadarajan
Founder President, NES-SVB Group of 69 Institutions

If you know the reason for my selecting “education” as my sole career option, you will fathom the real cause for my laying so much of emphasis on this college of Education and Research. I realized at my teens that it was only “education” which could salvage the country from the stigma of illiteracy and so was my decision to embrace education in preference over any lucrative avocation.

My interaction with international experts at different international seminars and conferences on 'Education' at U.K., U.S.A, Thailand, Middle East countries only confirmed by conviction about the need of R & D in 'Education' for its qualitative improvements in order to be globally competitive. The establishment of National Centre for R & D in Education, Science and Technology in the year 1993 was thus the outcome of my conviction while my findings from the International Seminars have only added advanced overtones to appropriations of R & D findings for global excellence.

The establishment of this Skill Development Institute has been a collation of my thought on importance of education for the country, the piquant role of teachers for the tiny tots in its advancement and the infusion of quality in teaching through R & D, with a view to achieving world class excellence. In fine, I do reckon this college as one consolidating all my philosophies on education and thus a dream project of mine.

In the same breath I do acknowledge the contribution made by my capable and caring faculty, a taste of which I get when I see my college results are 100% with the several Merits Ranks earned year after year. I also do mention that for achievements of my college and the achievements that my schools have earned by now, the contribution of my school parents have been enormous. My success would not have been as substantial as it has been today without their unreserved support.

FROM THE DIRECTOR'S DESK

Dr. V. BALASUBRAMANIAN
DIRECTOR, NES-SVB Group of 69 Institutions

Born to educationist parents though I aspired to become an Engineer, I had a strong feeling for the educational sector. My childhood was closely knit with the NES SVB institutions, where I studied. I developed a strong concern for the students, and their education. I have personally witnessed and experienced the trials and tribulations that my parents and these institutions have faced. Despite several odds all these institutions are now vibrant in their own excellence.

The SVB' Skill Development Institute is therefore most appropriate to train teachers in innovative pedagogy.

Prime objective of the NES-SVB Group is to redefine education and prepare our children for tomorrow's world. We are committed to providing our students an enriching and memorable learning experience. We at NES and SVB constantly motivate our teachers to adopt creative and experiential pedagogies, to be able to instill 21st century skills in our students.

Self-motivation, continuous learning, unstinted effort and perpetual innovation will make our students not mere job seekers but professionals/Industrialist/entrepreneurs in the coming years. As a member of the leadership team of the NES-SVB group, I see positive trends and I am optimistic about the education sector in India. My strategic vision for the future is to take up those initiatives that will place our group not only on the national map but also on the global map of educational programmes.

Dr. Mary Devakumar
I/c PRINCIPAL

It is my privilege & honor to welcome you to SVB's Skill Development Institute. We, the members of management, faculty, administrative and support staff are well committed to continue providing quality education and services through improved infrastructure, trained staff and excellent academic ambiance.

We feel proud to produce 100% result every year and also provide international exposure to our student-teachers by conducting IB training to face the global challenges.

The college is incessantly striving to perceive and maintain academic excellence, at the same time galvanizes the student-teachers to participate in various co-curricular and extra-curricular activities.

Our aspiration is not just to bestow knowledge and skills but also to develop the versatile personality of students.

My best wishes to all.

A BRIEF PROFILE OF THE COLLEGE

SVB Skill Development Institute is affiliated to Maharashtra State Board of Vocational Education Examination. It is established and managed by Saraswathi Vidya Bhavan, an Educational Trust registered with the Charity Commissioner, Greater Mumbai. The college had its humble beginning in the year 2015, and was founded by eminent educationist, Dr. R. Varadarajan, the Founder of 65 temples of Education.

The Institution has well-equipped infrastructure and facilities for providing quality education. It has spacious lecture halls with OHP, LCD and interactive boards. A well-stocked library provides all reference books, newspapers in three languages, magazines and periodicals, National & International educational publications.

The institution offers a wide range of training programs to improve teaching skills. Multiple programs like educational visits, nature walks, workshops, cooking, seminar presentations, Community work, awareness programs, visits to special schools etc., are conducted to create social and civil awareness in the minds of student teachers.

The quality of teaching, training and evaluation are reflected in the final result. The institution has an excellent track record of 100% result year after year. International training is organized every year to provide exposure to the IB curriculum to face the global challenges. The placement cell of the institution organizes grooming and personality development sessions. The institution has taken keen interest in providing placement to student teachers in the parent institutions.

Many of the students have got opportunity to work in NES - SVB institutions, which comprise of schools offering SSC, ICSE, IGCSE, IB Curricula, Student-teachers are helped to find placement in other well established institutions as well. Employability of student teachers encompasses more than academic strength. So the institution gives more importance to placement of the students.

The guiding force that has propelled the institution to greater heights is the vision of our great Educationist, the Founder President of NES - SVB group of 65 institutions, Dr. R. Varadarajan.
